Our F.I.S.H. Story

More and more families continue to visit F.I.S.H. of McHenry Food Pantry each week. We are running short of food, space and funding yet there never seems to be a shortage of hungry people! Currently, we are working with the Northern Illinois Food Bank to purchase foods at very reasonable prices in addition to having access to the FREE government commodities available to McHenry County. FISH now serves nearly 500 households per month which translates to approximately 1800 adults and children. We are also spending \$5000.00 per month to purchase \$25.00 Aldi food vouchers for families of 4 or more with children. F.I.S.H. has always been 100% volunteer based and receives all funding by donations from our Community. *Your generous contributions will help us to serve our neighbors in need!*
